DETAILED ACTION

Acknowledgements

1. Applicant(s)' amendment filed July 14, 2005 is acknowledged. Accordingly, claims 1,3-5, 8-16 remain pending.
2. This Office Action, the "First Non Final Office Action" is given Paper No. 20050930.
3. All references in this Office Action to the capitalized versions of "Applicant(s)" refers specifically the Applicant(s) of record. References to lower case versions of "applicant" or "applicants" refers to any or all patent "applicants." Unless expressly noted otherwise, references to "Examiner" in this Office Action refers to the Examiner of record while reference to or use of the lower case version of "examiner" or "examiners" refers to examiner(s) generally.
4. This Office Action is written in OACS. Because of this, the Examiner is unable to control formatting, paragraph numbering, font, spelling, line spacing, and/or other word processing issues. The Examiner sincerely apologies for these errors.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *e.g. In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 3627

6. A timely filed terminal disclaimer in compliance with 37 C.F.R. §1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 C.F.R. §1.130(b).

7. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 C.F.R. §3.73(b).

8. Claims 1 and 16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 22 of Adamac et. al. (U.S. 6,243,690 B1)("Adamac '690"). Although the conflicting claims are not identical, they are not patentably distinct from each other because Adamac '690 discloses an EPL witch stores a promotional message and promotional data file (the file storing the promotional message). It is the Examiner's position that it would have been obvious to reference the promotional messages by a message number stored in *e.g.* integer form in a relational database to reduce memory usage.

Claim Rejections - 35 USC §112 2nd Paragraph

9. The following is a quotation of the 2nd paragraph of 35 U.S.C. §112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 1, 3-5, 8-15, and 21 are rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3627

- a. In claim 1, it is unclear if "a message" as recited in the second to last line is the same or different from "the promotional message."

Allowable Subject Matter

11. Claims 1, 3-5, 8-15, and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
12. Claims 16-20 are allowed.
13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew J. Fischer whose telephone number is (571) 272-6779.
14. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander Kalinowski can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
